

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Brunner fails to teach or suggest a catalyst support comprising metallosilicate. Any possible double patenting issue with 10/534075 is moot with the filing of the Terminal Disclaimer, which was done solely to expedite issuance of the captioned application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
